# Management Support Network

## **Our Goal:**

- 1) To provide managers with practical solutions to manage quality, reduce costs and grow sales
- 2) To earn your business and to become a long-term business partner to support your future needs

## **Our Team & Our Experience:**

From our head office in Cambridge, Ontario we manage over 20 Specialists across Canada and the US, specializing in ISO 9000, ISO 14000, TS 16949, Continual Improvement (six sigma, lean manufacturing, kaizen), Health & Safety and SR&ED claims.

Our team includes senior consultants who are certified environmental auditors (CEA), ISO 14001:2004 & OHSAS 18000 lead assessors that perform audits for the registrars and consultants who have extensive experience with the requirements to pass a Workwell audit.

Over the last 24 months we have worked with Algoma Steel, Algonquin Automotive, Budd Automotive, Canadian General Tower (CGT), Egar Tool, Formnet, General Motors, Goodyear, Greening Donald, H&S Heat Treating, IGB Automotive, KYB, Leggett & Platt, Lincoln Moulded Products, Maple Manufacturing, Melling Tool, MPP, Niagara Piston, Northrop Grumman, Owens Corning, Progressive Moulded Products (PMP), Stratford Plastics, Schefenacker, Stackpole, Summo Steel, Textileather & Winston Steel

# What is ISO 14000?

The ISO 14001:2004 standard was developed by a non-profit, international organization to encourage environmentally sustainable economic activity and to help companies save money from environmental mismanagement. Based on input from almost every country in the world, the ISO 14001:2004 Environment Management System (EMS) standard represents a collection of management tools to help organizations manage short term and long term environmental impacts of their products, services and processes on the environment.

**Say What You Do ...**

**Environmental Manual  
EMS – Policy and  
Objectives**

**Do What You Say ...**

**Documented Process  
procedures/instructions**

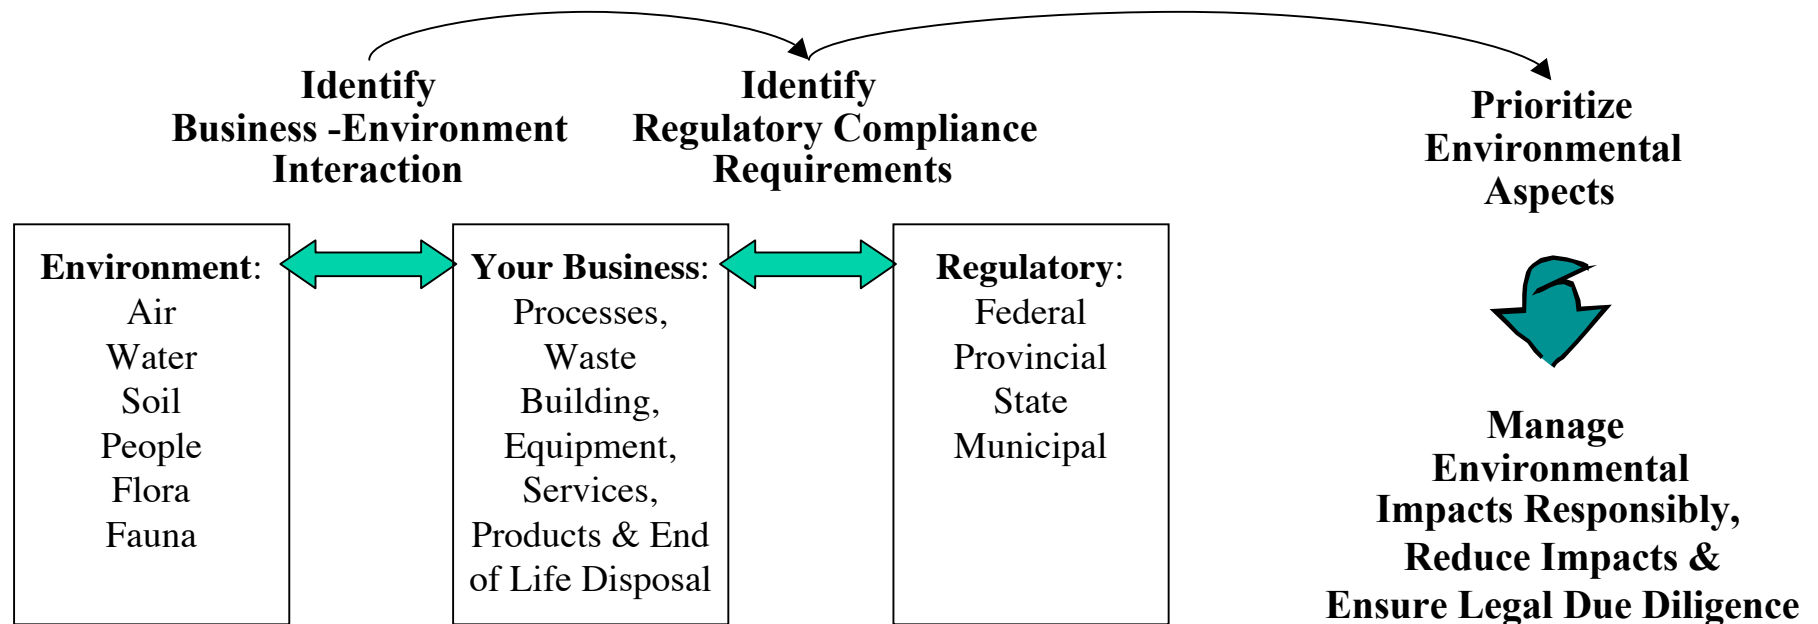

**Do It ...**

**Prove It ...**

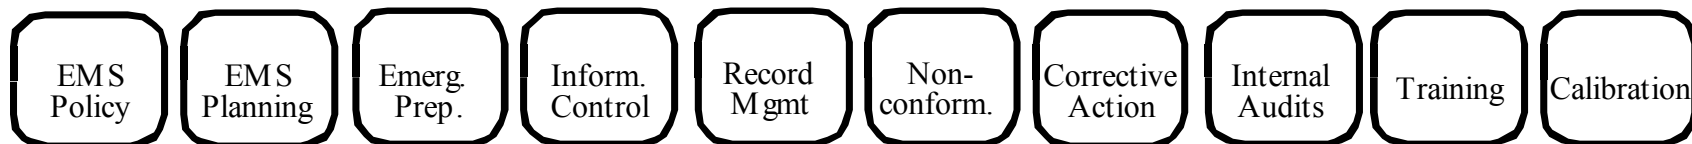

**Supporting Documentation**

**Improve It.**

# ISO 14001:2004 Environmental Management System

## Support Processes of ISO 14001

# Benefits of ISO 14000

## **1) Improved Control of Operations Impacting the Environment - Reduced Risk**

Management improves compliance with legislative/ regulatory requirements which will reduce company liability and risk. Some insurance companies have been unwilling to issue coverage for pollution-related incidents unless the firm has an environmental management system in place.

## **2) Save Money**

Provides a tool to identify and act on cost reduction initiatives related to pollution prevention and waste reduction.

## **3) Marketing Potential**

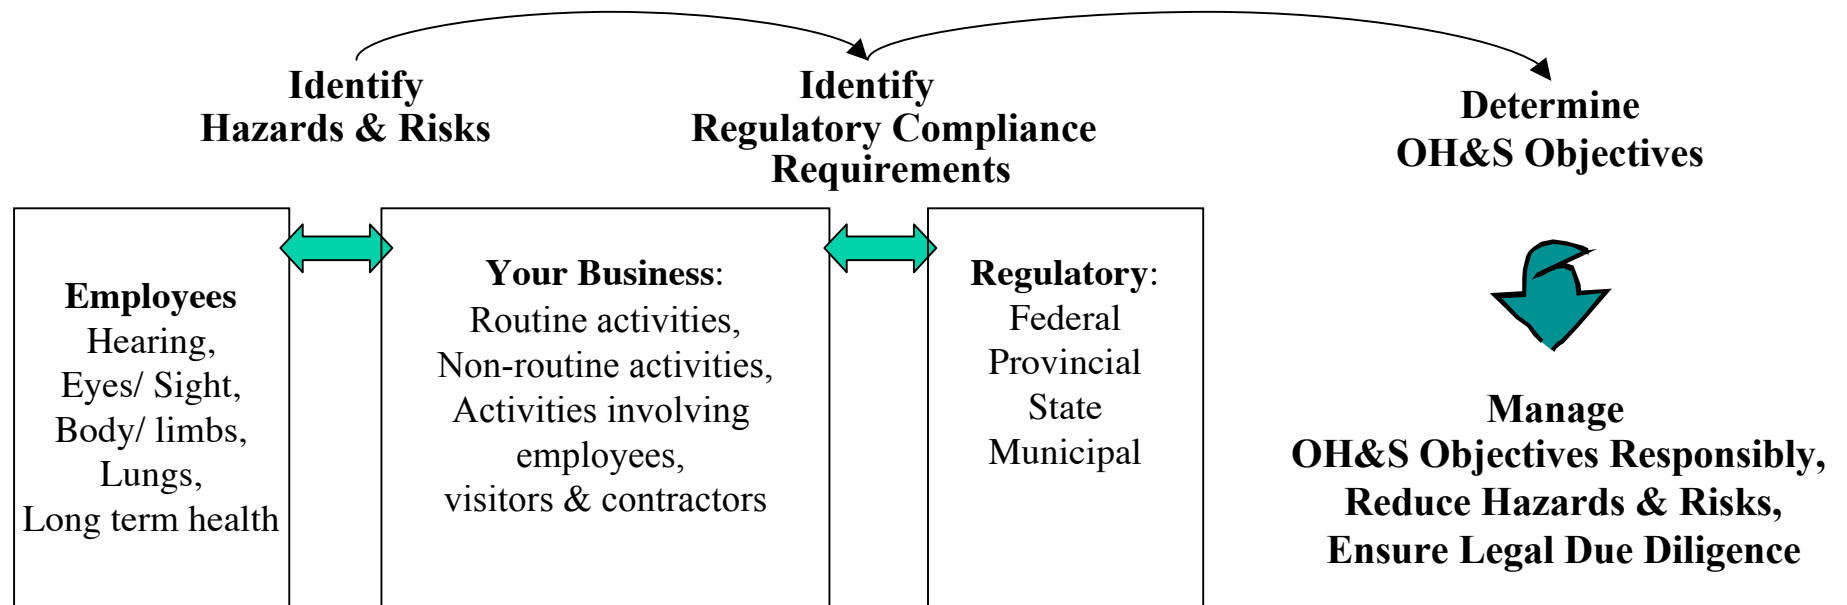

Some customer perceive organizations with ISO 14001:2004 registration as being more responsible to the environment, creating customer and community goodwill.

## **4) Continuous Improvement**

ISO 14000 provides a tool to identify and act on cost takeout and other improvement opportunities. ISO 14000 forces the Management Team to be more responsible for continuous improvement

# OHSAS 18001 Occupational H&S Management System

## Support Processes of OHSAS 18001

# Benefits of OHSAS 18000

## **1) Proactive OH&S Management - Reduced OH&S Risk**

Management reduces OH&S risk by having a management system in place that clearly defines roles and performance metrics. Improves compliance with OH&S legal requirements and helps organizations become more proactive in managing OH&S issues.

## **2) Save Money**

Provides a tool to identify and act on cost reduction initiatives related to OH&S expenses (WSIB premiums, lost productivity, Workwell fines, etc).

## **3) Marketing & Goodwill Opportunity**

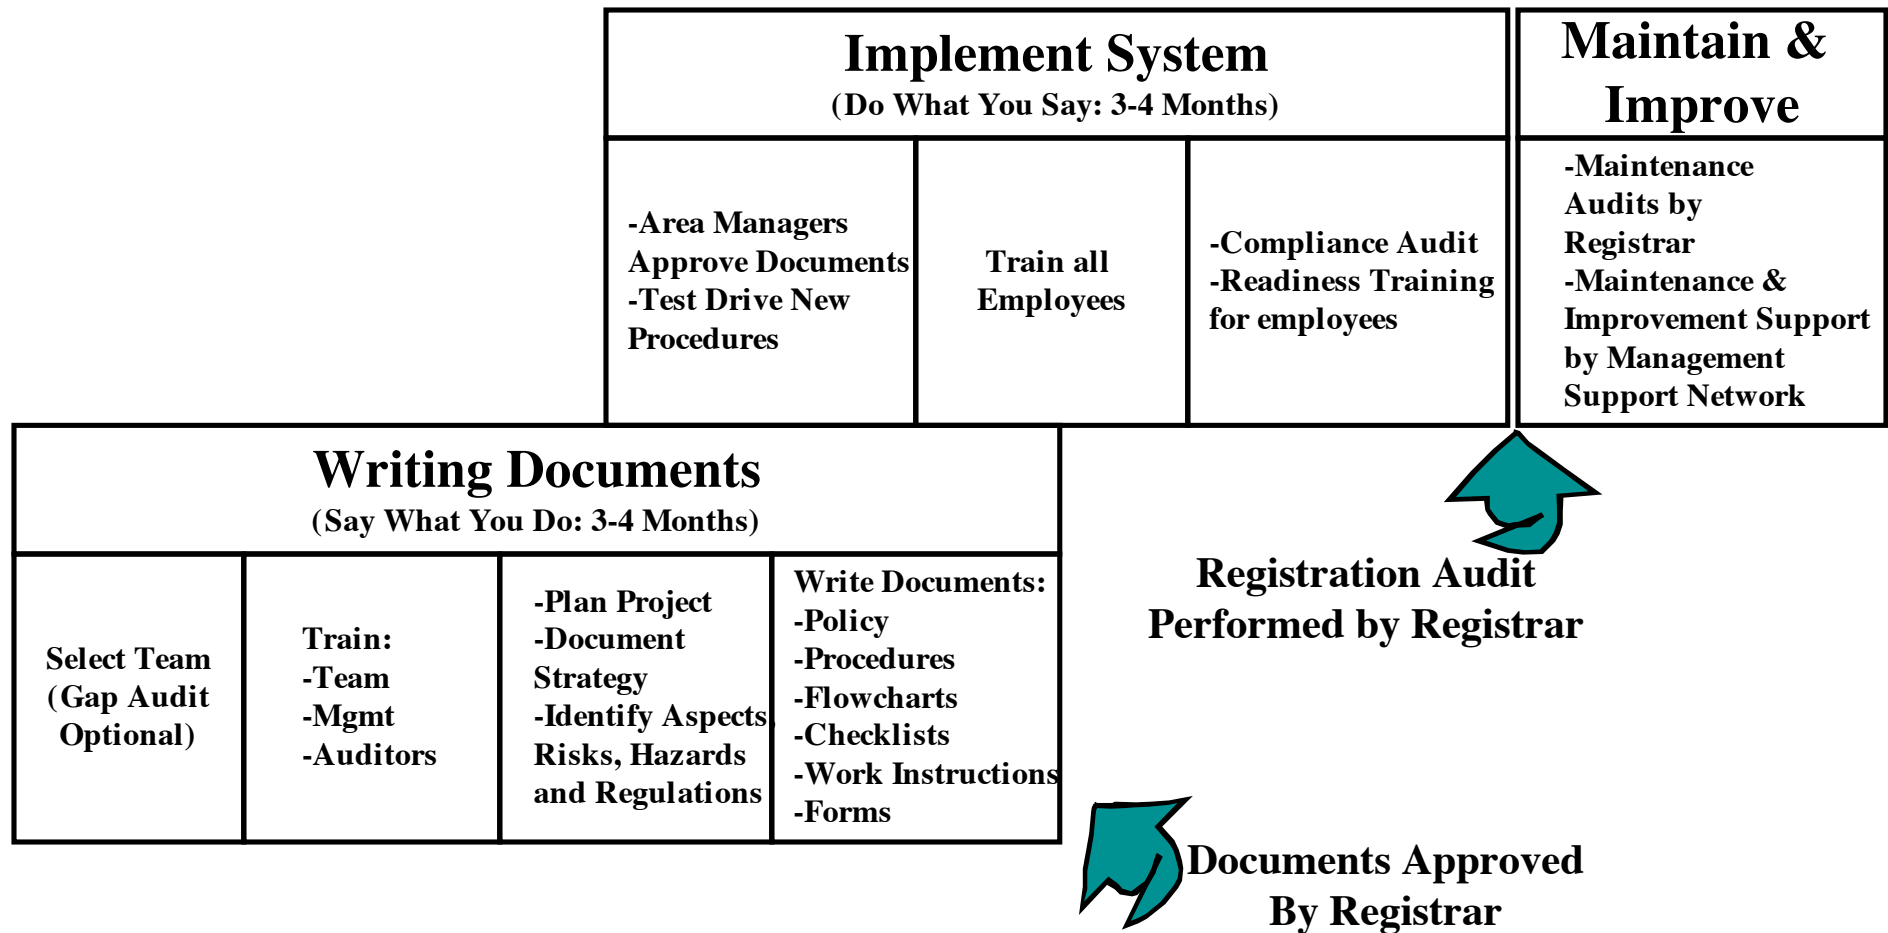

OHSAS 18000 registration will have some customers and employees perceiving management as being proactive, responsible and serious about OH&S concerns.

## **4) Continuous Improvement**

OHSAS 18000 provides a tool to identify and act on cost takeout and other improvement opportunities. OHSAS 18000 forces the Management Team to be more responsible for continuous improvement

# Critical Path to Registration

# Why Management Support Network?

We have helped hundreds of organizations implement and maintain effective management systems and is a premier provider of environmental management Consulting and Training Services because:

- Our consultants:** Our team includes certified environmental auditors (CEA), ISO 14001:2004 & OHSAS 18000 lead assessors & Workwell consultants.
- Our consulting approach:** We do not tell you how to manage your organization. We show you the options and let you select the best option for your management style and for your organization.
- Guaranteed registration:** We have a successful consulting history of helping organizations write, implement and maintain practical environmental management systems that support the goals of their organization. No extra expenses or surprises once the project starts.
- Proven methodology:** We provide project management assistance to ensure the project is delivered on-time and on-budget.
- Modular Management Systems:** Our consulting team includes experts in ISO 9001:2000, TS 16949 and OHSAS 18000. Also, we design all of our management systems to be modular which allows for easy integration with other management systems.
- Account managers:** Every client is assigned an Account Manager to ensure the client is fully satisfied.
- Monthly payment option:** We provide equal monthly payments over the life of the project.
